

## 1st ANNUAL HYDRO-AIR KIDS CAMPAIGN

### *Warming the World ... One Kid at a Time*

DECEMBER 2003

Hydro-Air Components Inc. announced today it's largest charitable event in the history of the corporation. With hopes to warm the hearts of many of the areas neediest children this winter, the company is rolling out it's first ever "Kids Campaign" just in time for over 3,500 youngsters to be outfitted with brand new snow suits and jackets for the holidays. Many of the company's employees have volunteered their own time to prepare for this event.

In cooperation with the Community Foundation for Greater Buffalo, over 30 local charities have been identified and will be assisting with the distribution to the children most in need. Included are: Bethel Head Start; Boy's and Girl's Clubs of Buffalo, Eden, East Aurora; Buffalo Federation of Neighborhood Centers; Cantalician Center for Learning; CAO of Erie County HeadStart; Central Daycare; Community Action Information Center; Compass House; Concerned Ecumenical Ministry; Dulski Community Center; Fire Survival Center; Gateway Longview; Harvest House; HomeSpace; International League of Muslim Women, Inc.; Joan A Male Family Support Center; Journey's End Resettlement Service; King Urban Life Center; Ladies of Charity; Masten Neighborhood/JUSENDO; Native American Community Service; Neighborhood Food Pantry; Niagara Community Action Program, Inc.; Salvation Army; Seneca Babcock Community Association; Sister's Hospital Foundation; South Buffalo Food Pantry; SS Rita and Patrick Parish; Upper Room Food Pantry; Valley Community Association; Vive, Inc., and the West Seneca Community Food Cupboard.

Hydro-Air has traditionally supported the community through contributions to the local food pantries at Thanksgiving, gifts to shelters for homeless woman and children and through their annual "Walter Zurowski" memorial golf outing to benefit Parkinson's disease research. The "Kid's Campaign" is the company's first event of this magnitude and designed specifically for children.

The company plans to continue the "Kid's Campaign" annually and hopes to get other businesses involved in this effort. *For more information on helping in the future, businesses can contact Hydro-Air Components at 716-648-3801.*
